

Silent Fan 4020 - 4,000 rpm

Technical Data

Height	40 mm
Width	40 mm
Depth	20 mm
Voltage range	8 - 12 V
Fan speed	4,000 rpm
Rated Power	0.6 W
Airflow	11.5 m³/h
Noise	13.5 dBA
Bearing	Rifle
Connector	3-Pin Molex
Code	4250140324306
Manufacturer number	CT4020BW

Logistical Data

Height (packaging unit)	120 mm
Width (packaging unit)	65 mm
Depth (packaging unit)	22 mm
Gross weight (packaging unit)	0,06 kg
Height (shipping box)	180 mm
Width (shipping box)	195 mm
Depth (shipping box)	250 mm
Gross weight (shipping box)	1.86 kg
pcs / ctn	40
Harmonized Code	84145920300

With the Silent Fan Series, we present the next step in the evolution of low-noise Cooltek fans.

A revised fan blade design and the use of extremely durable Rifle-bearings are the outstanding features of this newly developed silent fan series. The Cooltek Silent fans are ideal silent case fan for budget conscious users who are not willing to make compromises in quality.

This 40 x 20 mm model of the Silent Fan series rotates at 4,000 rpm max., producing an airflow rate of approximately 11.5 m³/h. The fan is particularly silent running with a noise level of just 13.5 dB(A). Included in the package are a set of fan screws, and practical silicone washers for the decoupled installation of the fan.

The starting voltage of the fan is about 7 volts; the speed can be adjusted at any time by means of a corresponding fan controller or an optional adapter cable.

The frame of the 40 mm Silent Fan is particularly stable and gives the fan a high stiffness. In combination with the high-quality bearings, the fan produces therefore with very little vibration.

Apart from the particularly high life expectancy the fan offers a very attractive price-performance-ratio.

The fan can be connected directly to the motherboard (3-pin molex connector). The monitoring of the speed through the motherboard or appropriate monitoring software is possible.
